Cocoon 3 - Student projects

Reinhard Pötz - Steven Dolg

Committers of the Apache Cocoon Project
Software Engineers @ Indoqa Software Design und Beratung GmbH

Cocoon 3

- Project of the Apache Software Foundation

- Cocoon 3 – A rewrite

- Go REST

Collaboration [1]

- Successful project results will be integrated into the Cocoon 3 codebase

- Early feedback

  - Jour-fix once a week

  - Code Reviews

  - Mailing-List participation

{}

Collaboration [2]

- Community Involvement

  - Discuss your ideas with the community (mailing lists)

  - Patches via Jira (own SCM recommended)

- Evaluation

  - community matters

  - code matters

Three project ideas

- ## Cocoon Monitoring
  JMX monitoring

- ## Cocoon Profiling
  Collect profiling data on a per-request basis and expose it via RESTful web services

- ## Cocoon Profiling UI
  A Firebug plugin
